Effective March 16, 2020 Northampton County Executive Lamont McClure has signed a Declaration, declaring the existence of a disaster emergency in Northampton County due to the Coronavirus / COVID-19. In response to that, the Tatamy Borough Police Department will implement the following guidelines when serving the public and responding to certain calls:

1. For all non-emergency calls that do not require a police response, an Officer will call you with a phone number that is left with the Northampton County 911 Center. After the phone call has ended the Officer will do a report just like any other report.
2. If the non-emergency incident would require an Officer to respond to your residence or business the Officer would request the caller to step outside if possible to further assist. If the caller is not able or willing step outside for whatever reason the Officer will respond accordingly.
3. For all emergency calls our Officers will continue to respond as normal with no phone call prior to a response to your residence or business.

We will continue to monitor the situation through The Centers for Disease Control and try to limit the exposure to our community and first responders. As time passes we will re-evaluate the situation and act accordingly.

The Tatamy Borough Police Department is committed to serving the community with the safety and well-being of our citizens and first responders in mind. Thank you for your cooperation and continued support.
