Subj: Tatamy Borough Sewer Authority – 2019 Sewer System Construction Activity Update

Contractors for the Tatamy Borough Sewer Authority will be conducting extensive maintenance and repair work on the Sanitary Sewer System throughout the Borough. The work is scheduled to begin on or about Monday, 8/19/2019 (weather permitting). The contractor plans on working Monday through Thursday, 7AM to 5PM. If the schedule is interrupted due to weather, they will work Fridays as needed.

The work will be done in the following order:

- Broad Street between 7th and 8th Streets
 - On-street parking will be prohibited on both sides of Broad Street between 7th and 8th Streets between August 19 through August 30th
 - Access to driveways may be restricted during active construction periods. It is advised that you plan accordingly and leave a vehicle parked on S. 7th Street
 - Travel will be reduced to one lane during working hours. Appropriate signage will be posted, and the contractor will have flaggers out directing traffic
 - Temporary steel plates will be placed on the roadway as needed at the end of the work day to ensure safe travel
- Main Street at the corner of Bushkill Street
- Trisha Street at the corner of Chief Tatamy Street
- Prospect Street – to the rear of 111 N 8th Street
- Hobson Street – near 550 Hobson St

The cost of this construction and repair work is covered solely by the Sewer Authority, using funds received as part of the quarterly sewer billings that are kept in a contingency account for maintenance and upkeep of the system.

Our contractor will strive to make repairs as quickly as possible and will make sure that all the roads are returned to a “pre-construction” state upon completion of the project. On behalf of the Tatamy Sewer Authority I apologize for any disruption this maintenance and repair activity may cause.

Regards,

Christopher Moren
Mayor, Tatamy Borough
Vice Chairman, Tatamy Borough Sewer Authority
